We are looking for an intern that is interested in ministry leadership while desiring to grow in their faith, knowledge and teaching skills. The internship can be designed to fit the intern's level of experience, ability and creativity. Internship responsibilities can also be customized for students needing ministry/candidacy credit.

Through the course of our Vista Internship Program the intern will gain a clearer sense of their personal giftings, grow deeper in their relationship with Christ, build leadership skills and gain hands-on experience in ministry. The internship program has both a Ministry experience aspect and mentoring aspect. The Ministry Experience part is actual hands-on, practical leadership experience in the area of Children's Ministry. The mentoring part centers on a mentoring relationship with the Children's Director who will meet regularly with the intern in order to foster a friendship, read the Bible together and pray.
